THE OWNERSHIP ADVANTAGE

Beyond Charter.

Fractional ownership puts you on the title. Real equity. Tax advantages. Guaranteed availability. You own a share of the aircraft—and that changes everything.

Your interests align with the asset itself. Professional management, predictable costs, and the flexibility to fly on your schedule. We handle every operational detail.

Occupied Hourly Rate

Your direct operating cost when flying. Includes fuel, landing fees, crew expenses, and maintenance accruals. Significantly below charter rates.

No Monthly Fees

Unlike traditional fractional programs, we don't charge monthly management fees. You only pay when you fly.

Contract Term

Standard agreements run 3-5 years with guaranteed buyback options. Early exit provisions available with notice period.

Annual Hours

Hours reset annually on your contract anniversary. Unused hours may be sold back or rolled over depending on program terms.

PROGRAM ADVANTAGES

Full Fleet Access

Accessibility to entire fleet at cost. Fly any aircraft category based on your mission needs.

Reduced Repositioning

Full fleet availability means we position the nearest aircraft—minimizing empty legs and costs.

No Monthly Fees

Zero monthly management fees. Your investment works without ongoing fixed costs eating into returns.

Guaranteed Returns

30% annual ROI through free flight hours, plus \$750K guaranteed buyback after 5 years.

The Financial Advantage

■ Accelerated Depreciation

Under current U.S. tax law, qualifying aircraft used for business may be eligible for 100% bonus depreciation in the year of purchase, providing significant tax benefits.

■ Predictable Costs

Lock in your monthly management fee and hourly operating costs. No surprise assessments, fuel surcharges, or hidden fees. Budget with confidence.

■ Asset Appreciation

Well-maintained aircraft in popular categories often retain 75-85% of their value at contract end. Your share represents real, transferable equity.

■ Cost Per Hour Advantage

Fractional hourly rates typically run 40-60% below equivalent charter costs. The more you fly, the greater your savings versus on-demand alternatives.

■ Resale Flexibility

Exit options include company buyback, sale to another owner, or transfer to family members. Liquidity built into every program.

100%

BONUS DEPRECIATION

U.S. businesses may qualify for full first-year depreciation on qualifying aircraft purchases
